

Matias Seitlinger

Junior Backend Developer • Java & Spring Boot

Barcelona, Spain · matiasseitlin@gmail.com · +34 677 239 214 · linkedin.com/in/matias-seitlinger · github.com/MatiaSeit

PROFESSIONAL SUMMARY

Junior backend developer specialized in Java and Spring Boot, graduate of Conquer Blocks' Full Stack Web Development Master's program. Hands-on experience building layered REST APIs with Spring Data JPA/Hibernate, relational databases and Swagger/OpenAPI documentation — plus full-stack projects with Django, React and production deployment. Analytical, self-driven profile with a background in operations management and quality control in international environments.

FEATURED PROJECTS

Java REST APIs — Spring Boot

Spring Boot 3 · Spring Data JPA/Hibernate · MySQL/PostgreSQL · Swagger/OpenAPI · Maven

- Order Management API — products, customers and orders; DTOs, centralized error handling and interactive Swagger docs.
- Inventory Management API — inventory management with @ManyToOne relations and automatic low-stock detection.
- Hotel Reserva API — reservation management with validation and status control (pending/confirmed/cancelled).

Alliance Supply Command — Final Master's Project

React · Django REST Framework · PostgreSQL · JWT · Celery/Redis · Docker

Multi-base inventory management system with atomic, concurrency-safe stock operations, async PDF manifest generation and a low-stock email digest. Role-based permissions, login throttling, concurrency tests and an end-to-end test with Playwright. Deployed on Render + Neon (PostgreSQL).

Demo: proyecto-final-conquerblocks-1.onrender.com · Repo: github.com/MatiaSeit/Proyecto-Final-Conquerblocks

Digital Library & Task Manager — Django

Python · Django · SQL

Two full Django applications: a library loan system (reviews, advanced search) and a Trello-style task manager (drag & drop, role-based access control). 23 automated tests across both, all passing.

Repos: github.com/MatiaSeit/DJANGO-1 · github.com/MatiaSeit/DJANGO-2

4 React Mini-Apps

React (hooks) · JavaScript · External APIs

Minesweeper, Sudoku Solver (backtracking), CatGallery and Rick and Morty Explorer, consuming public APIs.

TECHNICAL SKILLS

Backend: Java (Spring Boot, Spring Data JPA/Hibernate), Python (Django, DRF), Node.js, REST APIs, JWT, Celery/Redis

Databases: PostgreSQL, MySQL, SQL

Frontend: JavaScript, TypeScript, React, HTML, CSS/SCSS

Tools: Docker, Git/GitHub, CI/CD (GitHub Actions), Swagger/OpenAPI, automated testing (Django test, Playwright, Vitest)

Methodologies: Scrum / Agile

EDUCATION

Full Stack Web Development Master's Degree — Conquer Blocks (2025–2026)

Program completed; diploma pending issuance. Passed 24/24 internal assessments (HTML, CSS, JavaScript, TypeScript, SQL, Python, Java, VueJS, Git, among others).

PRIOR EXPERIENCE

Equestrian Area Manager — Fundación Al Reparo, Buenos Aires (2016–2020)

Operational management of 14 horses, coordination with veterinarians and training of new staff.

Documentation & Quality Control — Everest Travel GmbH, Frankfurt (2015–2016)

Verification of critical information and management of sensitive documentation under internal protocol.

Bartender — Velero Restaurante, Sydney (2010–2011)

Customer service and drink preparation in a fast-paced international environment.

LANGUAGES

Spanish (native) · English (advanced) · German (basic)
